Core Competencies:

K-3 Student Reflection and Self-Assessment

This resource was developed through careful analysis of the [Core Competencies Profiles](#) and [I Statements](#) from the [BC Ministry of Education](#). We looked at the language used, and simplified some aspects into K-3 student-friendly language for the purpose of student reflection and self-assessment.

Ideas on how to use this resource:

- this is a lengthy document - you can print just the page(s) you need for your students, as you focus in on one facet or competency
- space is provided for students to: draw, write, provide samples, photos, etc., to reflect on and document their growth in relation to facet(s) or one of the three broad competencies (*with support as needed*)
- space is also provided for students to develop learning goals (*with support as needed*)
- teachers can provide reflections or feedback on the back of a self-assessment page, or on sticky notes, if they choose - this can be a great way to continue and deepen student-teacher conversations
