

## GRADE 6 ENGLISH PORTFOLIO EXAMPLE

### Subject: English

Skill: Transform ideas and information to create original texts.

For the found poem we had to go through book pages and cut out words that you could make a poem with. I found this project okay it wasn't the funnest but whatever. Here take a look!

Proficiency Scale: I am in between developing and proficient because I enjoy writing stories but I don't enjoy writing poetry. It's hard for me to feel motivated to write, but then I like to draw in my free time and my drawings count as original texts.

#### Teacher Comments:

██████ is a fantastic artist and loves to show his learning through drawing and art. He was really happy to learn that "texts" do not always have to be writing, and he can create original texts as artwork, videos, and other visual means. ██████ is still developing his writing skills and uses examples very frequently when he is creating something new. He is encouraged to trust his creativity and artistic skills so that his texts can be truly original.

Evaluation: DEVELOPING
